EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jane Massey Licata on March 15, 2005.

The application has been amended as follows:

Claim 1 (Currently Amended): An isolated polynucleotide, comprising a Hematopoietic Growth Factor Inducible Neurokinin-I type nucleotide sequence that has at least 97% identity to SEQ ID NO: 1, said identity being calculated over the entire length of SEQ ID NO: 1, wherein the polynucleotide encodes a protein which binds to Substance P.

Conclusion

This application is in condition for allowance except for the following formal matters:

The specification on page 75 paragraph 00122 discloses nucleotide sequences without a respective sequence identifier, i.e. a SEQ ID NOs:. Hence, the disclosure fails to comply with the requirements of 37 CFR 1.821 through 1.825. In the absence of a sequence identifier for each sequence, Applicant must provide a computer readable form (CRF) copy of the sequence listing, an initial or substitute paper copy of the sequence listing, as well as any amendment directing its entry into the specification, and a statement that the content of the paper and computer readable copies are the same and, where applicable, include no new matter, as required by 37 CFR 1.821(e-f) or 1.825(b) or 1.825(d)..

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
